

PEF tells State: **PUNCH THIS!** Professionals don't punch time clocks.

PEF members *already* account for their time. Now, to settle our contract, the state wants our research scientists, doctors, engineers, lawyers, architects, accountants, economists, teachers, and other working state professionals to punch a

time clock. Governor, try passing a budget on time, instead of clock watching professionals!

It's not about time — it's about professionalism!
